CONTENTS OF VOLUME 21

JANUARY

Netty Buras, Lea Duek, Sara Niv, Balfour Hepher and Enrico Sandbank	1	Microbiological aspects of fish grown in treated wastewater
H. W. J. van Dijk and W. T. de Groot	11	Eutrophication of a coastal dune area by artificial infiltration
P. Prevot and M. O. Soyer-Gobillard	19	The degradation of parathion in cultures of the marine dinoflagellate *Porocentrum micans* E
Hugo Guterman and Sam Ben-Yaakov	25	Exchange rates of O_2 and CO_2 between an algal culture and atmosphere
N. Nouvion, J. C. Block and G. M. Faup	35	Effect of biomass quantity and activity on TOC removal in a fixed-bed reactor
C. M. Morrow and R. A. Minear	41	Use of regression models to link raw water characteristics to trihalomethane concentrations in drinking water
A. C. Edwards and M. S. Cresser	49	Relationships between ultraviolet absorbance and total organic carbon in two upland catchments
Bryan K. Ward and Louise G. Irving	57	Virus survival on vegetables spray-irrigated with wastewater
Hans Borg	65	Trace metals and water chemistry of forest lakes in northern Sweden
A. Braha and F. Hafner	73	Use of lab batch reactors to model biokinetics
S. J. de Mora, Roy M. Harrison and S. J. Wilson	83	The effect of water treatment on the speciation and concentration of lead in domestic tap water derived from a soft upland source
Christian Steinberg and Werner Kühnel	95	Influence of cation acids on dissolved humic substances under acidified conditions
Ulrich Memmert	99	Bioaccumulation of zinc in two freshwater organisms (*Daphnia magna*, Crustacea and *Brachydanio rerio*, Pisces)
Brian J. Harland, Peter J. D. Nicholson and Edward Gillings	107	Determination of volatile organic compounds in aqueous systems by membrane inlet mass spectrometry
Tang Hong-Xiao and Werner Stumm	115	The coagulating behaviors of Fe(III) polymeric species—I. Preformed polymers by base addition
Tang Hong-Xiao and Werner Stumm	123	The coagulating behaviors of Fe(III) polymeric species—II. Preformed polymers in various concentrations
Research Note		
J. Antheunisse and J. I. A. Koene	129	Alteration of the aerobic- and facultative anaerobic bacterial flora of the A/B purification process caused by limited oxygen supply

FEBRUARY

Editorial	133	
Report		
P. Grau, P. M. Sutton, M. Henze, S. Elmaleh, C. P. Grady, W. Gujer and J. Koller	135	Notation for use in the description of wastewater treatment processes
General Papers		
J. P. Maree and Wilma F. Strydom	141	Biological sulphate removal from industrial effluent in an upflow packed bed reactor

Zbigniew Lewandowski	147	Behaviour of biological reactors in the presence of toxic compounds
Kjetill Østgaard, Atle Aaberg, Jarle Klungsøyr and Arne Jensen	155	Comparative studies of phytotoxicity and chemical composition of aqueous oil solutions affected by evaporation, illumination and extraction
L. Carlson and U. Schwertmann	165	Iron and manganese oxides in Finnish ground water treatment plants
V. Chalapati Rao, Theodore G. Metcalf and Joseph L. Melnick	171	Removal of indigenous rotaviruses during primary settling and activated-sludge treatment of raw sewage
R. J. Baker, J. Gibs, A. K. Meng and I. H. (Mel) Suffet	179	Evaluation of a teflon helix liquid–liquid extractor for concentration of trace organics from water into methylene chloride
Shafkat A. Beg and Mirza M. Hassan	191	Effects of inhibitors on nitrification in a packed-bed biological flow reactor
G. W. Storey	199	Survival of tapeworm eggs, free and in proglottids, during simulated sewage treatment processes
Manjit K. Dosanjh and D. A. John Wase	205	Oxygen uptake studies on various sludges adapted to a waste containing chloro-, nitro- and amino-substituted xenobiotics
C. A. Backes and E. Tipping	211	Aluminium complexation by an aquatic humic fraction under acidic conditions
David L. Courtemanch and Susan P. Davies	217	A coefficient of community loss to assess detrimental change in aquatic communities
Kenneth Ian Ashley, Shawn Hay and George H. Scholten	223	Hypolimnetic aeration: field test of the empirical sizing method
Toshihiko Ozawa and Takao Kwan	229	Detoxification of chlorine dioxide (ClO_2) by ascorbic acid in aqueous solutions: ESR studies
Joseph B. Hunn, Steven J. Hamilton and Denny R. Buckler	233	Toxicity of sodium selenite to rainbow trout fry
Peter A. Wilderer, Warren L. Jones and Ursula Dau	239	Competition in denitrification systems affecting reduction rate and accumulation of nitrite
Acknowledgement to Referees	i	

MARCH

Hou Ranjie and Li Huimin	247	Modelling of BOD–DO dynamics in an ice-covered river in northern China
A. Voulgaropoulos, K. Fytianos, A. Apostolopoulou and X. Gounaridou	253	Correlation of some organic pollution factors in water systems in northern Greece
Da-Hong Li and Jerzy J. Ganczarczyk	257	Stroboscopic determination of settling velocity, size and porosity of activated sludge flocs
Timothy J. Maret, Michael Parker and Timothy E. Fannin	263	The effect of beaver ponds on the nonpoint source water quality of a stream in southwestern Wyoming
S. A. L. M. Kooijman	269	A safety factor for LC_{50} values allowing for differences in sensitivity among species
R. Sävenhed, H. Borén, A. Grimvall, B. V. Lundgren, P. Balmér and T. Hedberg	277	Removal of individual off-flavour compounds in water during artificial groundwater recharge and during treatment by alum coagulation/sand filtration
J. P. Baudin	285	Etude de la rétention du ^{65}Zn absorbé par voie trophique chez *Cyprinus carpio* L. Influence du rythme d'ingestion et de la teneur en radiozinc de la nourriture
B. Topping	295	The biodegradability of *para*-dichlorobenzene and its behaviour in model activated sludge plants

P. H. Jones, A. D. Tadwalkar and C. L. Hsu — 301 — Enhanced uptake of phosphorus by activated sludge—effect of substrate addition

Huey-Min Hwang, R. E. Hodson and R. F. Lee — 309 — Degradation of aniline and chloroanilines by sunlight and microbes in estuarine water

Ruth E. Sherman, Steven P. Gloss and Leonard W. Lign — 317 — A comparison of toxicity tests conducted in the laboratory and in experimental ponds using cadmium and the fathead minnow (*Pimephales promelas*)

Hisashi Yamada, Mitsu Kayama Kazuo Saito and Masakazu Hara — 325 — Suppression of phosphate liberation from sediment by using iron slag

Z. Alouini et R. Seux — 335 — Cinétiques et mécanismes de l'action oxydative de l'hypochlorite sur les acides α-aminés lors de la désinfection des eaux

H. Verdouw, Herman J. Gons and C. L. M. Steenbergen — 345 — Distribution of particulate matter in relation to the thermal cycle in Lake Vechten (The Netherlands): the significance of transportation along the bottom

Frank M. Benoit and R. Jackson — 353 — Trihalomethane formation in whirlpool spas

C. Annette Johnson and Iain Thornton — 359 — Hydrological and chemical factors controlling the concentrations of Fe, Cu, Zn and As in a river system contaminated by acid mine drainage

J. A. Field and G. Lettinga — 367 — The methanogenic toxicity and anaerobic degradability of a hydrolyzable tannin

Research Note

G. McKay, G. Ramprasad and Pratapa Mowli — 375 — Desorption and regeneration of dye colours from low-cost materials

Forthcoming Conferences — 379

APRIL

Daniel G. Burden, Ronald F. Malone and Constantine E. Mericas — 385 — Isolation as a restoration strategy for nutrient reduction in a small hypereutrophic lake

William P. Lucey, Alan Austin and John Deniseger — 395 — Concept and design of a substrata container for sampling periphyton

K. V. Ellis — 403 — Slow sand filtration as a technique for the tertiary treatment of municipal sewages

Charles A. Lunsford, Michael P. Weinstein and Larry Scott — 411 — Uptake of Kepone® by the estuarine bivalve *Rangia cuneata*, during the dredging of contaminated sediments in the James River, Virginia

Geronimo V. Simsiman, Gordon Chesters and Anders W. Andren — 417 — Effect of ash disposal ponds on groundwater quality at a coal-fired power plant

M. Chevreuil, A. Chesterikoff and R. Létolle — 427 — PCB pollution behaviour in the River Seine

Odd K. Skogheim, Bjørn Olav Rosseland, Frode Kroglund and Gøsta Hagenlund — 435 — Addition of NaOH, limestone slurry and finegrained limestone to acidified lake water and the effects on smolts of Atlantic salmon (*Salmo salar* L.)

Pierre Servais, Gilles Billen and Marie-Claude Hascoët — 445 — Determination of the biodegradable fraction of dissolved organic matter in waters

Leo T. Mulcahy and Wen K. Shieh — 451 — Fluidization and reactor biomass characteristics of the denitrification fluidized bed biofilm reactor

Mark Woombs and Johanna Laybourn-Parry — 459 — Seasonal species composition, density and role of nematodes in activated-sludge effluent treatment works

C. Oger, J. F. Hernandez, J. M. Delattre, A. H. Delabroise et S. Krupsky — 469 — Etude par épifluorescence de l'evolution de la microflore totale dans une eau minérale embouteillée

P. R. Hawkins and D. J. Griffiths — 475 — Copper as an algicide in a tropical reservoir

N. E. Kinner and C. R. Curds — 481 Development of protozoan and metazoan communities in rotating biological contactor biofilms

Makram T. Suidan, Bruce E. Rittmann and Ulrich K. Traegner — 491 Criteria establishing biofilm-kinetic types

Research Note
James E. Alleman, Vasiliki Keramida and Lisa Panteá-Kiser — 499 Light induced *Nitrosomonas* inhibition

Announcement — 503 14th Biennial Conference and Exhibition, 17–22 July 1988, Brighton, England

MAY

Abbreviated Report
M. Henze, C. P. Leslie Grady Jr, W. Gujer, G. V. R. Marais and T. Matsuo — 505 A general model for single-sludge wastewater treatment systems

General Papers
Annette Olsen — 517 Low technology water purification by bentonite clay and *Moringa oleifera* seed flocculation as performed in Sudanese villages: effects on *Schistosoma mansoni* cercariae

R. J. François — 523 Ageing of aluminium hydroxide flocs

A. Sukenik, B. Teltch, A. W. Wachs, G. Shelef, I. Nir and D. Levanon — 533 Effect of oxidants on microalgal flocculation

M. Legret, L. Divet et P. Marchandise — 541 Mobilité et extraction des métaux lourds associés aux boues de stations d'épuration

K. T. O'Grady and P. B. Spillett — 549 The feasibility of using disused water treatment filter beds for rearing carp (*Cyprinus carpio* L.) in the U.K.

Andreas D. Andreadakis — 559 Organic matter and nitrogen removal by an on site sewage treatment and disposal system

M. C. Annesini, F. Gironi, M. Ruzzi and C. Tomei — 567 Adsorption of organic compounds onto activated carbon

Abdullah M. El-Rehaili and Walter J. Weber Jr — 573 Correlation of humic substance trihalomethane formation potential and adsorption behavior to molecular weight distribution in raw and chemically treated waters

R. W. Crabtree, I. D. Cluckie and C. F. Forster — 583 Percentile estimation for water quality data

Kathleen H. Bowmer — 591 Nutrient removal from effluents by an artificial wetland: influence of rhizosphere aeration and preferential flow studied using bromide and dye tracers

Roy C. Warbington, Kirke L. Martin, Douglas A. Rice, Donna G. Howell and William L. Boyd — 601 A membrane filter method for the enumeration of aquatic ammonifiers

Joan G. Ehrenfeld — 605 The role of woody vegetation in preventing ground water pollution by nitrogen from septic tank leachate

Stefan Wagener and Bernhard Schink — 615 Anaerobic degradation of nonionic and anionic surfactants in enrichment cultures and fixed-bed reactors

Announcement — 623 IAWPRC 14th Biennial Conference and Exhibition, 17–22 July 1988, Brighton, England

JUNE

D. B. Seale, M. E. Boraas and G. J. Warren — 625 Effects of sodium and phosphate on growth of cyanobacteria

Donald A. Kane and Charles F. Rabeni	633	Effects of aluminum and pH on the early life stages of smallmouth bass (*Micropterus dolomieui*)
L. Santoro, G. Volpicelli and V. Caprio	641	Limestone neutralization of acid waters in the presence of surface precipitates
Gary L. Amy, Roger A. Minear and William J. Cooper	649	Testing and validation of a multiple nonlinear regression model for predicting trihalomethane formation potential
Josef Steber and Peter Wierich	661	The anaerobic degradation of detergent range fatty alcohol ethoxylates. Studies with ^{14}C-labelled model surfactants
Hirosi Ono and Junko Nakanisi	669	Herbicide, CNP contamination in the Lake Kasumigaura basin
W. K. Teo and T. C. Tan	677	Hypochlorite oxidation of cyanate under mildly alkaline conditions
Evangelos Biziagos, Jacques Passagot, Jean-Marc Crance, Felix Agbalika, Henri Laveran and Robert Deloince	683	Concentration of hepatitis A virus
George D. Harris, V. Dean Adams, Darwin L. Sorensen and Michael S. Curtis	687	Ultraviolet inactivation of selected bacteria and viruses with photoreactivation of the bacteria
J. C. Amiard, A. Pineau, H. L. Boiteau, C. Metayer et C. Amiard-Triquet	693	Application de la spectrométrie d'absorption atomique Zeeman aux dosages de huit éléments traces (Ag, Cd, Cr, Cu, Mn, Ni, Pb et Se) dans des matrices biologiques solides
Louis Martel, Michel J. Gagnon, Robert Massé and André Leclerc	699	The spatio–temporal variations and fluxes of polycyclic aromatic hydrocarbons in the sediments of the Saguenay Fjord, Québec, Canada
N. Millot, C. Granet, A. Wicker, G. M. Faup and A. Navarro	709	Application of G.P.C. processing system to landfill leachates
Akiyoshi Sakoda, Kunitaro Kawazoe and Motoyuki Suzuki	717	Adsorption of tri- and tetra-chloroethylene from aqueous solutions on activated carbon fibers
P. H. Jones and L. Tasfi	723	The effect of applied direct current on biological phosphorus uptake
Research Note		
H. De Haan and T. De Boer	731	Applicability of light absorbance and fluorescence as measures of concentration and molecular size of dissolved organic carbon in humic Lake Tjeukemeer
Comment		
E. A. R. Ouano	735	Comment on "Effect of Operation Conditions on Biological Fe^{2+} Oxidation with Rotating Biological Contractors" by Kanji Nakamura, Tatsuya Noike and Jun'ichiro Matsumoto
Kanji Nakamura, Tatsuya Noike and Jun'ichiro Matsumoto	735	Author's reply
Forthcoming Conferences	737	
Announcement	743	IAWPRC 14th Biennial Conference and Exhibition, 17–22 July 1988, Brighton, England

JULY

Review Paper		
Hans-Curt Flemming	745	Microbial growth on ion exchangers
General Papers		
A. R. Bowers and C. P. Huang	757	Role of Fe(III) in metal complex adsorption by hydrous solids
Mohan V. Thampi and Charles A. Sorber	765	A method for evaluating the mixing characteristics of u.v. reactors with short detention times
T. Vartiainen, A. Liimatainen, S. Jääskeläinen and P. Kauranen	773	Comparison of solvent extractions and resin adsorption for isolation of mutagenic compounds from chlorinated drinking water with high humus content

N. Altintaş, T. Ayok and T. Gözmen — 781 — Fluorine pollution in the Marmara region, Turkey. Production methods for fluorine removal and recovery

Weimin Wu, Jicui Hu, Xiasheng Gu, Yizhang Zhao, Hui Zhang and Guoguan Gu — 789 — Cultivation of anaerobic granular sludge in UASB reactors with aerobic activated sludge as seed

Fred A. Blanchard, Stanley J. Gonsior and Daniel L. Hopkins — 801 — 2,2-Dibromo-3-nitrilopropionamide (DBNPA) chemical degradation in natural waters: experimental evaluation and modeling of competitive pathways

Christon J. Hurst and David A. Brashear — 809 — Use of a vacuum filtration technique to study leaching of indigenous viruses from raw wastewater sludge

H. Thibaud, J. De Laat, N. Merlet et M. Doré — 813 — Formation de chloropicrine en milieu aqueux: influence des nitrites sur la formation de precurseurs par oxydation de composés organiques

Kozo Ishizaki, Kazuyuki Sawadaishi, Kazunobu Miura and Nariko Shinriki — 823 — Effect of ozone on plasmid DNA of *Escherichia coli in situ*

Jürgen Benndorf and Klaus Pütz — 829 — Control of eutrophication of lakes and reservoirs by means of pre-dams—I. Mode of operation and calculation of the nutrient elimination capacity

Jürgen Benndorf and Klaus Pütz — 839 — Control of eutrophication of lakes and reservoirs by means of pre-dams—II. Validation of the phosphate removal model and size optimization

Hiroaki Shiraishi and Akira Otsuki — 843 — Identification and determination of 4-(chloromethylsulfonyl)bromobenzene, a new herbicide additive, in lake waters

David E. Jackson, Richard A. Larson and Vernon L. Snoeyink — 849 — Reactions of chlorine and chlorine dioxide with resorcinol in aqueous solution and adsorbed on granular activated carbon

Comment

Stephen A. Boyd — 859 — Comment on "Methanogenic Degradation of Four Phenolic Compounds" by L. Y. Young and M. D. Rivera

L. Y. Young and M. D. Rivera — 859 — Authors' reply

Announcement — 863 — IAWPRC 14th Biennial Conference and Exhibition, 17–22 July 1988, Brighton, England

AUGUST

J. Suschka — 865 — Hydraulic performance of percolating biological filters and consideration of oxygen transfer

L. W. Wood, G-Y. Rhee, B. Bush and E. Barnard — 875 — Sediment desorption of PCB congeners and their bio-uptake by dipteran larvae

Asit K. Sen and Arnab K. De — 885 — Adsorption of mercury(II) by coal fly ash

Vinay Singh, Ram Narain and Chandra Prakash — 889 — Fluoride in irrigation waters of Agra district, Uttar Pradesh

W. A. Pretorius — 891 — A conceptual basis for microbial selection in biological wastewater treatment

Mirat D. Gurol and Robert Vatistas — 895 — Oxidation of phenolic compounds by ozone and ozone + u.v. radiation: a comparative study

Sergi Sabater, Francesc Sabater and Xavier Tomas — 901 — Water quality and diatom communities in two Catalan rivers (N. E. Spain)

Lewis L. Osborne and Ronald W. Davies — 913 — The effects of a chlorinated discharge and a thermal outfall on the structure and composition of the aquatic macroinvertebrate communities in the Sheep River, Alberta, Canada

Gertrud K. Nürnberg, Rosemary Hartley and Edward Davis — 923 — Hypolimnetic withdrawal in two North American lakes with anoxic phosphorus release from the sediment

C. A. WEDEKING, V. L. SNOEYINK, R. A. LARSON and J. DING — 929 Wet air regeneration of PAC: comparison of carbons with different surface oxygen characteristics

M. F. HAMODA and M. F. ABD-EL-BARY — 939 Operating characteristics of the aerated submerged fixed-film (ASFF) bioreactor

TAIZO TSUDA, HIROSHI NAKANISHI, SHIGERU AOKI and JUNKO TAKEBAYASHI — 949 Bioconcentration and metabolism of phenyltin chlorides in carp

ALI A. Z. DOUABUL, JAMAL K. ABAYCHI, MANAL K. AL-ASADI and HAYTHAM AL-AWADI — 955 Restoration of heavily polluted branches of the Shatt al-Arab River, Iraq

R. J. MARTIN and W. J. NG — 961 The repeated exhaustion and chemical regeneration of activated carbon

CHAD T. JAFVERT and RICHARD L. VALENTINE — 967 Dichloramine decomposition in the presence of excess ammonia

J. R. W. HARRIS — 975 Sink or drain: a simulation study of factors affecting the role of an estuary subject to toxic inputs

S. D. WORLEY, D. E. WILLIAMS and S. B. BARNELA — 983 The stabilities of new N-halamine water disinfectants

JAN PETER VAN DER HOEK and ABRAHAM KLAPWIJK — 989 Nitrate removal from ground water

JAMES R. MILLER and JULIAN B. ANDELMAN — 999 Speciation of aluminum in an acidic mountain stream

Announcement — 1007 IAWPRC 14th Biennial Conference & Exhibition on Water Pollution Control, 17–22 July 1988, Brighton, England

SEPTEMBER

ROBERT E. STAUFFER — 1009 A comparative analysis of iron, manganese, silica, phosphorus, and sulfur in the hypolimnia of calcareous lakes

R. J. FRANÇOIS — 1023 Strength of aluminium hydroxide flocs

M. O. CORAPCIOGLU and C. P. HUANG — 1031 The adsorption of heavy metals onto hydrous activated carbon

H. BRATTEBØ, H. ØDEGAARD and O. HALLE — 1045 Ion exchange for the removal of humic acids in water treatment

YILMAZ MUSLU — 1053 A new approach to the prediction of fluidization of filter media

P. P. KARHADKAR, JEAN-MARC AUDIC, G. M. FAUP and P. KHANNA — 1061 Sulfide and sulfate inhibition of methanogenesis

H. W. PEARSON, D. D. MARA and C. R. BARTONE — 1067 Guidelines for the minimum evaluation of the performance of full-scale waste stabilization pond systems

B. A. QUAYE — 1077 Predicting optimum backwash rates and expansion of multi-media filters

CLAUDE BERNARD, GENEVIÈVE BOISSONNADE, YVES REGNAT, FRANÇOIS COLIN, MARIE-JOSÉ JOURDAIN and JACQUES BOUCHINET — 1089 Automatic detection of coliform bacteria for industrial control of drinking water quality

B. LEGUBE, PH. NOMPEX et M. DORÉ — 1101 Ozonation des bases puriques en milieu aqueux: études cinétiques de la réaction

VINOD TARE and SANJEEV CHAUDHARI — 1109 Evaluation of soluble and insoluble xanthate process for the removal of heavy metals from wastewaters

MARYLYNN V. YATES and S. R. YATES — 1119 A comparison of geostatistical methods for estimating virus inactivation rates in ground water

B. J. DUTKA, A. EL SHAARAWI, M. T. MARTINS and P. S. SANCHEZ — 1127 North and South American studies on the potential of coliphage as a water quality indicator

L. H. Vaas, R. N. J. Comans, H. A. Das, J. M. M. Reith and C. H. van der Weijden — 1135 — Isotopically exchangeable phosphate in freshwater sediments: effects of u.v.-irradiation, formaldehyde, solid/solution ratio, and pH on its experimental determination

Technical Note

Joseph G. Jacangelo, V. P. Olivieri and Kazuyoshi Kawata — 1143 — Thiosulfate-dechlorination interference with the Folin–Ciocalteu reagent method for protein determination

Erratum — 1145

Forthcoming Conferences — 1147

Announcement — 1151 — IAWPRC 14th Biennial Conference & Exhibition on Water Pollution Control, 17–22 July 1988, Brighton, England

OCTOBER

P. Fletcher and P. H. T. Beckett — 1153 — The chemistry of heavy metals in digested sewage sludge—I. Copper(II) complexation with soluble organic matter

P. Fletcher and P. H. T. Beckett — 1163 — The chemistry of heavy metals in digested sewage sludge—II. Heavy metal complexation with soluble organic matter

G. Allen Burton Jr and G. R. Lanza — 1173 — Aquatic microbial activity and macrofaunal profiles of an Oklahoma stream

T. C. Tan and W. K. Teo — 1183 — Combined effect of carbon dosage and initial adsorbate concentration on the adsorption isotherm of heavy metals on activated carbon

Drora Kaplan, Aharon Abeliovich and Sam Ben-Yaakov — 1189 — The fate of heavy metals in wastewater stabilization ponds

F. Gadel and A. Bruchet — 1195 — Application of pyrolysis–gas chromatography–mass spectrometry to the characterization of humic substances resulting from decay of aquatic plants in sediments and waters

James J. Bisogni Jr and Thomas E. Barnard — 1207 — Numerical technique to correct for weak acid errors in Gran function analysis of titration data

Ariyawathie G. Wathugala, Takao Suzuki and Yasushi Kurihara — 1217 — Removal of nitrogen, phosphorus and COD from waste water using sand filtration system with *Phragmites australis*

A. J. Twinch — 1225 — Phosphate exchange characteristics of wet and dried sediment samples from a hypertrophic reservoir: implications for the measurements of sediment phosphorus status

Adrian Esterman, Ian Calder, Scott Cameron, David Roder, Reginald Walters, Peter Christy and Bret Robinson — 1231 — Determinants of the microbiological characteristics of spa pools in South Australia

Elmar Kuhn, Mark van Loosdrecht, Walter Giger and René P. Schwarzenbach — 1237 — Microbial degradation of nitrilotriacetate (NTA) during river water/groundwater infiltration: laboratory column studies

Wuk-Hee Hong, Peter G. Meier and Rolf A. Deininger — 1249 — A microcomputer-interfaced continuous flow toxicity test system

Peter G. Meier, Wuk-Hee Hong and Rolf A. Deininger — 1259 — Application of tracer techniques to continuous-flow toxicity testing

Robert C. Hansson, Mark J. Henderson, Philip Jack and Robert D. Taylor — 1265 — Iodoform taste complaints in chloramination

E. Gilbert — 1273 — Biodegradability of ozonation products as a function of COD and DOC elimination by example of substituted aromatic substances

P. Brimblecombe, S. L. Clegg, T. D. Davies, D. Shooter and M. Tranter — 1279 — Observations of the preferential loss of major ions from melting snow and laboratory ice

M. Romeo, M. Gnassia-Barelli and C. Carre — 1287 — Trace metals: Cd, Cu, Pb and Zn in gelatinous macroplankton from the northwestern Mediterranean

MANFRED SCHLÜTER, JOOST GROENEWEG and CARL J. SOEDER — 1293 — Impact of rotifer grazing on population dynamics of green microalgae in high-rate ponds

Announcement — 1299 — IAWPRC 14th Biennial Conference & Exhibition on Water Pollution Control, 17–22 July 1988, Brighton, England

NOVEMBER

CARLO SOLISIO and M. DEL BORGHI — 1301 — The anaerobic digestion of surplus activated sludge in a fixed-film bioreactor

LAURRAINE H. LÖTTER and ELIZABETH H. M. VAN DER MERWE — 1307 — The activities of some fermentation enzymes in activated sludge and their relationship to enhanced phosphorus removal

JOSEF HEJZLAR — 1311 — Effect of inorganic salts and adsorption in Sephadex-gel chromatography of aquatic organic substances

NICOLAS KATSIRIS and ALEXANDRA KOUZELI-KATSIRI — 1319 — Bound water content of biological sludges in relation to filtration and dewatering

PEDRO A. GARCÍA ENCINA and FERNANDO FERNÁNDEZ-POLANCO — 1329 — Behaviour of an anaerobic expanded bed reactor in non-steady state conditions

A. M. PATTI, A. L. SANTI, R. GABRIELI, S. FIAMMA, M. CAULETTI and A. PANÁ — 1335 — Hepatitis A virus and poliovirus 1 inactivation in estuarine water

JOSEPH G. JACANGELO, VINCENT P. OLIVIERI and KAZUYOSHI KAWATA — 1339 — Oxidation of sulfhydryl groups by monochloramine

J. B. LEFERS, W. F. VAN DEN BROEKE, H. W. VENDERBOSCH, J. DE NIET and A. KETTELARIJ — 1345 — Heavy metal removal from waste water from wet lime(stone)–gypsum flue gas desulfurization plants

G. A. HOLDER and G. M. VAUGHAN — 1355 — Benzoate removal by aerobic bioslimes

A. VELEGRAKI-ABEL, U. MARSELOU-KINTI and C. RICHARDSON — 1363 — Incidence of yeasts in coastal sea water of the Attica peninsula, Greece

NICHOLAS J. FENDINGER and DONALD D. ADAMS — 1371 — Nitrogen gas supersaturation in the recent sediments of Lake Erie and two polluted harbors

JOAN B. ROSE, REBECCA L. MULLINAX, SHRI N. SINGH, MARYLYNN V. YATES and CHARLES P. GERBA — 1375 — Occurrence of rotaviruses and enteroviruses in recreational waters of Oak Creek, Arizona

JACOB ZABICKY and BERNARD RIEGLER — 1383 — Release of bromine into a continuous stream of water from polyvinylpyridine–bromine complex in packed columns

S. K. SRIVASTAVA, NALINI PANT and NARESH PAL — 1389 — Studies on the efficiency of a local fertilizer waste as a low cost adsorbent

J. G. HENRY, D. PRASAD and H. YOUNG — 1395 — Removal of organics from leachates by anaerobic filter

LARS LÖVGREN, TOMAS HEDLUND, LARS-OLOF ÖHMAN and STAFFAN SJÖBERG — 1401 — Equilibrium approaches to natural water systems—6. Acid–base properties of a concentrated bog-water and its complexation reactions with aluminium(III)

ROBERT F. CARLINE, AMY J. BENSON and HANS ROTHENBACHER — 1409 — Long-term effects of treated domestic wastewater on brown trout

ROBERT F. HICKEY, JULIANA VANDERWIELEN and MICHAEL S. SWITZENBAUM — 1417 — The effects of organic toxicants on methane production and hydrogen gas levels during the anaerobic digestion of waste activated sludge

M. G. KELLY, C. GIRTON and B. A. WHITTON — 1429 — Use of moss-bags for monitoring heavy metals in rivers

Technical Note
A. GÓMEZ-PARRA, J. M. FORJA and D. CANTERO — 1437 — A new device for sampling waters in shallow ecosystems

Announcement 1445 IAWPRC 14th Biennial Conference & Exhibition on Water Pollution Control, 17–22 July 1988, Brighton, England

DECEMBER

J. WANNER, J. CHUDOBA, K. KUCMAN and L. PROSKE 1447 Control of activated sludge filamentous bulking—VII. Effect of anoxic conditions

U. M. COWGILL 1453 Critical analysis of factors affecting the sensitivity of zooplankton and the reproducibility of toxicity test results

MOSHE SHEINTUCH 1463 Steady state modeling of reactor–settler interaction

JUAN J. BORREGO, MIGUEL A. MORIÑIGO, ANTONIO DE VICENTE, ROBERTO CÓRNAX and PEDRO ROMERO 1473 Coliphages as an indicator of faecal pollution in water. Its relationship with indicator and pathogenic microorganisms

H. SIEGRIST and W. GUJER Ⓜ 1481 Demonstration of mass transfer- and pH effects in a nitrifying biofilm

EDWARD J. BOUWER Ⓜ 1489 Theoretical investigation of particle deposition in biofilm systems

R. N. VAIDYA and V. G. PANGARKAR 1499 Convective diffusion model for mass transfer in a rotating biological contactor: disc submergence <50%

HIROSHI YOSHIMI 1505 Simultaneous construction of single-parameter and multiparameter trophic state indices

G. MCKAY, M. EL GEUNDI and M. M. NASSAR 1513 Equilibrium studies during the removal of dyestuffs from aqueous solutions using bagasse pith

MOGENS HENZE Ⓜ 1521 Theories for estimation of the fraction of denitrifiers in combined nitrifying–denitrifying treatment plants

DAVID A. DEPASQUALE, CONSTANCE B. LAW and GARY K. BISSONNETTE 152[illegible] Comparative survival and injury of *Candida albicans* and bacterial indicator organisms in streams receiving acid mine drainage

RONALD C. DYKHUIZEN 1531 Transport of solutes through unsaturated fractured media

J. WANNER, K. KUCMAN, V. OTTOVÁ and P. GRAU Ⓜ 1541 Effect of anaerobic conditions on activated sludge filamentous bulking in laboratory systems

MOTOYUKI YODA, MIKIO KITAGAWA and YUSHO MIYAJI 1547 Long term competition between sulfate-reducing and methane-producing bacteria for acetate in anaerobic biofilm

J.-P. DESCY, P. SERVAIS, J. S. SMITZ, G. BILLEN and E. EVERBECQ 1557 Phytoplankton biomass and production in the River Meuse (Belgium)

L. J. COLLINS and A. R. PASKINS 1567 Measurement of trace concentrations of hydrogen in biogas from anaerobic digesters using an Exhaled Hydrogen Monitor

Research Note

ROB N. J. COMANS 1573 Adsorption, desorption and isotopic exchange of cadmium on illite: evidence for complete reversibility

Technical Note

P. A. HORNE and G. L. BENNISON 1577 A laboratory stream design for biological research

Comment

JAN CHUDOBA 1581 Comment on "A New Rapid Method for Determining Sludge Activity" by J. Oláh and P. Princz

JÓZSEF OLÁH and PÉTER PRINCZ 1582 Authors' reply

Forthcoming Conferences 1583
